

## **Camera Techniques**

A good grasp of photographic principles and techniques is a prerequisite for enrolment.

The aim of this course is to make students feel very confident with their photographic equipment, understand the camera settings and put it all together in practice.

Students will be introduced to a range of techniques which help them to be more creative with every single shoot. It will revise a variety of functions, including histogram, colour management, HDR, Panoramic shots, compensating exposure, long exposures, Built-in-flash, gun flash, bracketing.

### **Duration:**

10 weeks (2 hours per week) on a morning or evening sessions.

### **Equipment:**

Digital camera.
