

## **Capture the everyday magic of your family's life**

The course is suitable for people who have a DSLR camera but still not sure how to best use it and would like to document those everyday moments. Also for anyone who has a smartphone or tablet but would still be interested in a class about taking better family photographs.

The course explains how to grab your camera and don't miss the fun, the firsts, the connections, and the chaos.

In this practical session you will learn how to find the fastest way to access the different functions, to capture what you see through your lens, find and work with light. How to position your subject and make your images come alive.

### **Duration:**

3 hours workshop.

### **Equipment:**

Camera and Digital media.
