

Technique and Imagination. Enhance your Camera Skills

The course is suitable for students with some experience and also for beginners. However, a basic knowledge of your camera is recommended.

The course explains the basic science of photography and has been designed for digital camera users (Compact or SLR) who have a keen interest in improving their photographic skills.

It includes practical sessions when you will learn how to find the fastest way to access the different functions of your camera and how to control and combine them creatively to compose great shots.

You will be taught how to use the light to take digital photographs of people, objects and landscapes.

Duration:

6 weeks (2 hours per week) on a morning or evening sessions.

Equipment:

Digital Camera.
